

Henderson
Marquæ Hire

About Us

Henderson Marquee Hire is a family-run business which was established in 1999. The business has grown steadily, mainly as a result of repeat business and personal recommendation. Much of our work is based locally, however we regularly erect marquees all over Scotland.

We strongly focus on personal service as we understand how important this is to the client. We appreciate that each customer has different needs and we treat each event as being individual, trying to accommodate all specific requirements where possible.

'We were really impressed with your service. Everything was arranged perfectly which consequently made our organization so much easier'

-Clark, Thomson & Shepherd Investors

'I would like to thank you and your staff for the excellent service provided during this year's Highland Show'.

-New Holland

Quality of equipment is also of utmost importance and we have concentrated on building up superior stock which is clean and well maintained. On completing a job we make sure that the customer is entirely satisfied before we leave, although we are always on call!

'Your marquee was terrific and was perfect for the occasion'

Elaine Howie Public Relations

'The marquee looked beautiful and many of the guests said the same thing'

-Hazel and Guy Ritchie, Perth

In short we appreciate the importance to the customer of their special event and that everything should be perfect on the day!

Marquee Frames

Our marquees are modern, high quality clear-span frame marquees. They are PVC clad on rigid aluminium frames – designed to withstand poor weather conditions and can be used with full confidence all year round.

The marquee frames come in varying widths and lengths and the size can be tailored to your specific requirement.

Frame marquees differ from traditional marquees in the following ways:

- They have no centre poles inside the marquee.
- They can be erected on most surfaces (not just grass).
- They can be adjoined to buildings.
- They require less room at the site as there are no guy ropes.
- They can withstand poorer weather conditions.

Linings

Our pleated ivory lining with matching or contrasting valance creates a stunning look. Various valance colours available.

Our black-out starlight roof lining creates a sensational party atmosphere. Whether you choose to roof the entire marquee or just the dance area it is guaranteed to create a spectacular look. Available with black or ivory wall linings.

Sub Structure Flooring

We believe that marquee flooring is of paramount importance. Our innovative flooring guarantees a smooth finish regardless as to the ground conditions. This is achieved by initially laying a steel sub frame over the ground and then inserting polished wooden boards into the framework. Because the substructure frame is made of steel we can take out ground undulations and reduce or eliminate gradients (depending on the extent of the slope.)

Why choose our marquee flooring?

- It is completely smooth even on undulating ground.
- It can be built up to remove or reduce slopes (depending on gradient)
- It is much safer to use as each board is secured into the steel frame.
- It is raised from the ground thus giving better insulation.
- Water does not seep through in extremely wet conditions.
- It can straddle obstacles eg a stream, small kerb, a step.
- It is great for dancing on!

Additional Marquee Equipment

Porches, 'Chinese hat' and Walkways – these can be attached to the marquee to give an all-weather covered entrance.

Connecting Marquees – these can be attached to the main marquee for different purposes such as a catering, a cloakroom, an entrance foyer, etc.

Hip end – our 9m structure has the option of a hexagonal end.

Windows – 'orangery' window walling is available in 3m sections for our 6m, 9m and 12m structures. 'panoramic' window walling is available in 5m sections for our 15m structures.

Double Entrance Doors – our doors are made of aluminium and are of the highest quality.

Heating – our heaters are extremely effective even in winter. They sit outside the marquee and heat is ducted in.

Raised staging – available in 8' x 4' sections

Furniture – we can arrange for a full range of tables and chairs to be supplied

Toilet Facilities – luxury loos or basic toilet units can be supplied depending on your Requirements

Lighting

- **Chandeliers** - on dimmer switches
- **Spot lights** - directs light to specific points.
- **Disco lighting** – moving heads, colour washes, etc
- **Up-lighters** - these are placed between the lining and the covers of the marquee to provide a soft effective light in the evening.
- **Wall lights** - normally used to light walkways and cloakroom areas.
- **Strip lighting** - used in catering areas, and for more utility events.
